## 2021 COMMUNITY SUPPORTED AGRICULTURE

**Calliope Farm** is a family farm producing about 20 acres of **certified organic** mixed vegetables in pristine fields on the banks of the Black River in Littlerock, WA, 15 miles south of Olympia. In operation since 2007, It is our vision to produce a wide variety of affordable staples as well as gourmet specialty crops for our local community, while sustaining and improving the healthy farm ecosystem that we are privileged to steward.

**CSA subscribers** receive a freshly harvested box of produce, made up of 7-10 diverse and popular items, once per week during the growing season. All produce is grown by us and subscribers pick up boxes at conveniently located drop sites. The CSA model is a vital way for customers to support farms by providing early season cashflow, by sharing in the risk and reward typically shouldered by farmers, and by creating a foundation of community around local food producers. **The simplicity of our CSA model allows us to load up our members with produce of unsurpassed quality, at a tremendous value.**

**Dates:** The **Summer Share CSA** season begins in mid June and continues for **20 weeks** until late October. The **Fall Share CSA** season begins the first week of November and continues for **8 weeks** until late December.
